Ayush Singh

Backend & systems engineer — TypeScript, Node.js, Rust, Python

Naya Raipur, India · B.Tech ECE, IIIT Naya Raipur, graduating May 2028

LOOKING FOR	WHERE	START
SDE internships & full-time roles	Remote · IST (UTC+5:30)	Available now

I build production-grade backend systems and AI-powered applications: distributed job engines, LLM agents, LSM-tree databases and reverse proxies.

36k+	*~70k*	*4*	*2,037*
users on a platform I built and run	req/s from my Rust proxy, ~1% off nginx	merged open-source PRs, 3 into FreeCAD	GitHub contributions this year

EXPERIENCE

Amrevx · Software Development Engineer Intern

Jul 2026 — Present

TRADElogs — a MetaTrader-5 trading journal SaaS

- Built the live AI trading coach: a Groq chatbot grounded on the trader's own data — win rate, profit factor, session and day edges — through a token-bounded context pipeline.
- Streams tokens over SSE with per-user Redis rate limits and rule-based fallback; compliance guardrails and prompt-injection defences treat all external data as untrusted.
- Integrated the Python/FastAPI MT5 bridge with the Node backend, and fixed a race on the broker's single-terminal lock that caused intermittent 500s.

VedaAI · SDE Intern

Jun 2026 — Jul 2026

Vedafy Technologies — B2B education platform

- Shipped the Google Classroom integration for VedaAI v3 — rosters, courses and assignments sync, so teachers onboard existing classes without setup.
- Built backend services and REST APIs across the platform, owning features end-to-end with the founding team.
- Reworked UI/UX across key product surfaces for usability and consistency.

TheCinePrism · Freelance Full-Stack Developer

Jul 2025 — Present

Movie reviews and a newsletter, in production

- Built and maintain thecineprism.com: **36,000+** active users, **253,000+** monthly events, sub-100 ms API via Redis caching.
- AWS with Docker CI/CD, Cashfree payments, SES and BullMQ queues.
- Cut monthly infra cost **60%** (**$47** → **$16–20**) by dropping the ALB and NAT Gateway for one EC2 instance with self-hosted Redis and Nginx.

PROJECTS

Sahaayak `Team lead` **An AI staff for the small businessman the internet left behind.**

4+1 agents + an agent factory **14** DynamoDB tables, serverless **81** tests, offline ↔ AWS parity

`Python · FastAPI · AWS Bedrock · Strands Agents · Cedar`

Pullwright **Hand it a GitHub issue. Get back a pull request.**

5 LLM providers, auto-failover **$0.10** per-task budget cap **~7 min** for a sub-$0.02 fix

`TypeScript · Node.js · Docker · Redis · BullMQ · Multi-LLM`

DiskMap **A native macOS storage analyzer — shipping as freedisk.space.**

7.3 s to scan 1.79M files **~55×** faster walk than FileManager **0 B** ever leave your Mac

`Swift · SwiftUI · AppKit · macOS · WPF`

Relay A reverse proxy that keeps pace with nginx.

~70k req/s, within 1% of nginx **~5 ms** p99 latency **54 ns** per rate-limit check

`Rust · Tokio · Axum · Hyper`

Strata A storage engine, from the write-ahead log up.

1.87M writes/sec (fsync off) **24×** faster absent-key lookups **46/46** correctness & crash tests

`Rust · LSM-tree · Storage engines`

BelieveMeGuys Copy the traders you trust, fill for fill.

<1 s to mirror a leader's fill **0** withdrawal permissions held **$10** minimum per copy

`Copy trading · Real-time · Delta Exchange`

ICS Fault Detection Six agents watching a water plant for attacks.

99.83% fault detection on SWaT **51** sensors, live

`Python · Flask · React · scikit-learn`

LearnGraph Chemistry prep that knows what you are about to forget.

325 concepts in a graph **25** chapters

`TypeScript · Neo4j · PostgreSQL · Claude API`

SKILLS

Languages	TypeScript · JavaScript · Python · Rust · Go · Java · C++ · SQL
Backend & Frameworks	Node.js · FastAPI · Next.js · React · Prisma ORM · Socket.IO
Data & Infra	PostgreSQL · MongoDB · Redis · Neo4j · BullMQ · Docker · AWS · Nginx
AI & Systems	LangChain · RAG · Claude Code · scikit-learn

EDUCATION

IIIT Naya Raipur B.Tech, Electronics & Communication `Aug 2024 — May 2028`

Head of the DevOps Club
